According to ANSI and MIA standards, depending on the type and size of tile, it is recommended to have at least a 1/8" wide grout joint for floor tiles in order to be able to fill the grout joint full and never less than 1/16" wide. Please refer to TCNA guidelines for more on grout recommendations.

Hygienic and Safe Surfaces with ACTIV

A new anti-bacterial technology for ceramic tiles with a true silver ion shield incorporated into the product prior to firing. The treatment is an integral part rather than a layer applied to the surface, that eliminates up to 99.9% of bacteria and other harmful microorganisms, reducing the possibility of contagion.

- 24 hr/day protection
- Easier cleaning
- Eliminates odors and reduces stains
- Guarantees constant antimicrobial and antibacterial action (under any light conditions)
- Exceptional durability
- Inhibits growth of pathogenic microorganisms forever
- Contributes to a healthier environment
- Ideal for residential and commercial areas:
 - kitchens, bars, restaurants, catering establishments, canteens, medical buildings, schools, offices, bathrooms, spas, swimming pools, and gyms
