MIAMI WHITE

The constant evolution of architecture and our new lifestyles have led more and more towards the search for osmotic environments where the inside encroaches on the outside spaces with a natural informality.

This is why it becomes necessary to find a fluid surface suitable for creating places that will dialogue with each other uniformly and discreetly.

AIRTECH/ has been devised to integrate into all spaces in which one's instinct for design can leave a distinctive mark.

A complete system of surface finishes, colors and sizes highlight unexpected potentialities.
